

QUYET THANG NGUYEN

Software Engineer

nquyetthang.work@gmail.com | +44 7944 476097 | Nottingham, UK | github.com/kobach0812 | linkedin.com/in/andythang

PROFILE

Enthusiastic junior software engineer with a strong foundation in programming, algorithms, and software development. Skilled across frontend (React/Next.js), backend (Python, Java), and mobile (Swift). Passionate about problem-solving and learning new technologies. Experienced in agile teams, test-driven development, and CI/CD workflows. Eager to contribute to innovative projects in a dynamic tech environment.

EDUCATION

BSc Computer Science – University of Nottingham

2025 – Present · Upper Class (in progress)

BCs Computer Science – International University, Vietnam National University

2023 – 2025 · Second Upper Class · Partial Scholarship Recipient

- Principles of Database Management: 80%
 - Object-Oriented Programming: 82%
-

PROJECTS

NHS Health Data Visualisation

Full Stack Developer – Group Project, Team of 8 · **Best Group Project – Honourable Mention**

Tech: React, TypeScript, D3.js, Three.js, Python, GitLab CI/CD

- Built an interactive health analytics dashboard visualising 13 years of NHS hospital admissions data (2012–2025)
- Contributed to both React/D3.js/Three.js frontend and Python ETL data pipeline in a team of 8
- Wrote and passed 55 unit and integration tests; applied FIRST testing principles throughout
- Followed agile methodology: sprint planning, retrospectives, Jira task tracking, and GitLab CI/CD

School Management System – Java Desktop Application

Backend Developer

Tech: Java, MVC, OOP, Swing

- Engineered a comprehensive school management desktop application using Java, applying OOD principles and MVC
- Designed modules for student records, course management, and grade tracking with clean separation of concerns
- Implemented the Controller and Model layers to ensure maintainability and independent testability

PlaySnapp (iOS App)

iOS Developer – Personal Project

Tech: Swift, SwiftUI, Xcode

- Independently designed and built an iOS application using Swift and SwiftUI (21+ commits)
 - Managed the full development lifecycle: requirements, design documentation, implementation, and iteration
-

EXPERIENCE

Frontend Developer | The Project Darts

Jan 2026 – Present

- Specialise in React/Next.js applications with strong experience in API integration and data handling
- Built responsive, animated UI using Next.js 16 App Router, React 19, and Framer Motion
- Integrated Supabase for authentication and real-time data fetching with SSR support
- Configured full CI/CD: ESLint, Prettier, Husky pre-commit hooks, GitHub Actions, and Vercel deployment

Vice Leader, Human Resources | IT Youth Union – International University VNU

Oct 2023 – Jun 2025

- Mentored 7 junior associates; 5 achieved promotions within 12 months through structured development plans
 - Led cross-departmental initiatives and drove consensus on complex organisational challenges
-

AWARDS & RECOGNITION

Best Group Project – Honourable Mention – NHS Health Data Visualisation

University of Nottingham, School of Computer Science · May 2026

Partial Academic Scholarship

International University, Vietnam National University · 2023 – 2025

SKILLS

TypeScript · JavaScript · React · Next.js · Python · Java · Swift · Tailwind CSS · Supabase · D3.js · HTML/CSS · Git · CI/CD · Agile · OOP · MVC
